Dear Clerks and Recorders,

As we have finished Institute and Academy I am reminded of the importance of continued learning. We were able to acquire knowledge in order to expand our skills, which are important for us now in our current positions as well as future opportunities.

Amit Nagpal, Master Trainer says there are 7 ways lifelong learning will benefit you:

- Remain relevant by keeping up to date with trends and adapting your skill set.
- Prepare for the unexpected, it will help you adapt to unexpected changes.
- Boost your profile and you will grow in your career and start to receive recommendations from colleagues and managers.
- Competence leads to confidence and you'll feel more ready to take on challenges.
- Spark new ideas unveiling new opportunities and help you find innovative solutions to problems.
- Change your perspective and you open your mind and change your attitude by building upon what you already know.
- Pay it forward helps you with your leadership skills, which then are translated into fostering lifelong learning in other individuals.

I noticed so many wonderful things happening at Institute and Academy and it was heart-warming. I noticed you helping each other out with questions pertaining to different circumstances in your jobs, making a new associate feel welcomed, and basking in the training you were receiving. I am so lucky to associate with so many talented, kind, mentoring, fun, happy and upbeat women and men. That is just part of what I see in all of you. Keep it up, learning is fun.

Sincerely,

S. Annette Spindlove

2019 Institute and Academy

THANKS to everyone who planned, organized, and attended our 2019 Institute & Academy! We appreciate SUU for coordinating our meetings as well as providing their beautiful facilities and scenic location for us to meet.

Institute and Academy was amazing. I loved it. I learned a lot. I don't know why it took me so long to get here.

As a brand new recorder I had a bit of anticipatory distress about going alone to my first Institute. Would it be over my head? Would it be painfully boring? I'm happy to "record" that I laughed, cried, learned so much, and not only made great network connects, I made friends!
