Quarterly Newsletter—February 2020

## President's Message

Annette Spendlove

Dear Membership,

I came across 8 career success secrets on how to excel at work. Maybe you are looking at these for the first time, or some of you already know of these and just need a reminder. Whichever it is, I hope they can be useful:

1. Take initiative
2. Be proactive
3. Work hard to create value
4. Bring solutions, not just problems
5. Don't complain
6. Know that you are replaceable
7. Make your own development plan
8. Never stop learning

It is obvious that some of these depend upon the boss or supervisor that you have. We have all had someone, in our past, present, and will have in our future, that gives us roadblocks. Learn to work with that person, not against them, as this person could have roadblocks also. Number 6 might have caused you to pause but, it's true. We are all replaceable, so it is important to make yourself marketable and you do that by learning all you can.

As we are preparing for Institute and Academy, I want to thank our Education Committee and Southern Utah University for their commitment to making sure that you are getting the best education that will help you to succeed in your profession and

to not only "Reach for Success", but obtain success. We look forward to seeing you at Institute and Academy the week of March 15th - 20th.

Sincerely,

*S. Annette Spendlove*

S. Annette Spendlove  
UMCA President
